*Software  
Engineering*

## ENGINEERING TEAMS TO SUPPORT VARIOUS DIRECTIVES IN MULTIPLE GLOBAL LOCATIONS

### APPROACH

- Ramped up a team of 24 Engineers and a Project Manager driving medical device verification around the globe.
- Consolidated 4 distinct projects into a single contract with a dedicated team, supporting 14 separate programs.
- Facilitated local client support located at 3 ALTEN companies for each client region.
- Appointed one single point of contact to oversee total global engagement.

### RESULTS

- Achieved economies of scale (all work completed under one contract allowed for additional flexibility and ability to add scope at any time).
- Open opportunity to provide short-term surge resourcing at any time.
- In the first 6 months:
  - > Reduced overhead costs by 9% due to lower contract management.
  - > Executed 104 test requests
  - > Maintained 100% staff utilization

### KEY TECHNOLOGIES

- Report weekly KPIs to client through Smartsheet
- Perform test execution with DOORS
- Sprint planning using Rally
