Barrier Testing Results												

ALLEN ACTIVITIES

Provided a Project Management team supervised by ALLEN Technical Direction, to support GSK Global Process Safety Team for:

- Engagement with CH sites globally to collect outstanding activities related to process safety:
 - Risk assessment
 - GES gap analysis
 - Outstanding actions
 - ALARP demonstrations
- Providing standardization of templates and process safety dashboard
- Data analysis, insight finding and reporting to define a Global Strategy for 2022

STANDARDS & TOOLS

- Management & relational skills
- Global Engineering Standard
- Microsoft Office (Excel, PowerPoint, Outlook, MS Project, Visio)
- Power BI

ABOUT

In Consumer Healthcare a CAPA was opened to correct major findings identified in 3 production sites during an A&A audit , then implement preventive actions in the remaining CH sites:

- Process Safety Maturity Model
- Monitoring / Process Safety Plan
- Improvement of Risk Governance
